A pelleted/extruded feed for the special nutritional needs of older horses

A fixed-ingredient formula specifically designed for the special nutritional needs of older horses. This easy-to-chew feed provides added fat, digestible fiber sources, and is a perfect recommendation for older horses and horses who present digestion challenges.

BENEFITS

- > **Low Starch and Sugar** recommended for older horses.
- > **Pelleted/extruded** form for ease of chewing and digestion.
- > **Added Fat** to support the body condition of older horses.
- > **Fixed Ingredient Formula** for consistent palatability and consumption.
- > **Added Prebiotic and Probiotic** cultures to support digestive efficiency and health.
- > **Added Flax** to support hoof, muscle, joint and immune system function.
- > **Amino Acid Fortification** to support muscle repair and maintenance.
- > **Organic Trace Minerals Including Selenium** for desired hoof, coat, skin quality and to support immune system.
- > **Digestible Fiber Sources** to compensate for reduced hay consumption due to reduced chewing ability.
